

## **OFNZ Wairarapa Sample Letter to Council 4.11.04**

Evergreen Plants  
57 Gowhere Street  
Greytown

South Wairarapa District Council  
12 Main Street  
Greytown

4 November 2004

Dear Sir/Madam,

### **Re Organic Certification**

Our property at 57 Gowhere Street, Greytown has commenced the process of certification under Organic Farm New Zealand. It is important that I notify you regarding our commitment to certified organic production and enlist your cooperation.

Any drift of contaminants such as Agrichemicals onto the property may threaten our organic status. This could mean the loss of our certification or expensive and time-consuming remedial action.

We plan to utilise the road as a buffer zone between us and our neighbours. The best solution for us would be non-chemical maintenance of our road frontage. Please contact the writer so we can sit down and discuss management of our road frontage. This will enable us to clarify any issues you may have.

We would be most grateful if you could keep our organic status in mind at all times.

Having sat down together and planned the management of our road frontage we would appreciate a written reply to supply to the governing body.

Thank you for your cooperation in the matter.

Warm regards,

Olivia Chemfree
